and

Karnataka Ophthalmic Society (KOS)

To

Paediatric eye is fundamentally different from adult eye. The diagnosis and management of pediatric eye diseases is challenging and requires special skill and understanding.

We invite you to this Paediatric Ophthalmology CME which is intended to benefit paediatric ophthalmologists, comprehensive ophthalmologists, postgraduates, optometrists and paediatricians who are involved in maintaining high-quality health care for paediatric populations. The program highlights all the subspecialties of paediatric ophthalmology; it will provide participants with an understanding of newer developments in the field and an appreciation of the current challenges and controversies.

Requesting one and all to attend, enjoy and imbibe from this scientific bonanza.
