KARNATAKA OPHTHALMIC SOCIETY

Phaco Basics: Incision, Trench, Chop, I/A

Hall A- Dr. Doreswamy M N

DAY 1

Nov 27th | **09:00 AM TO 10:00 AM**

Chairperson : Dr.Srinivasa K H

Moderator : Dr.Ragavendra Ramappa

Panelist : Dr.Chetan Anand R, Dr.Gopinath G S, Dr.Kavita Vadi

No.	Topic	Speaker	Min
1.	Getting the Incision Right: Architecture, Site and Sealing	Dr. Vijaya Pai H	7
2.	Hydroprocedures Done Right: Hydrodissection and Hydrodelineation	Dr. Anu Malik	7
3.	Capsulorhexis that works: Size, centration & control	Dr. Shivaji Padamukhi	7
4.	Trench and Divide: Mastering Nucleus Sculpting	Dr. Avinash S	7
5.	Chop Techniques: Horizontal vs Vertical	Dr. Chinnappa A G	7
6.	Safe Irrigation–Aspiration: Clearing Cortex Without Complications	Dr. Dishitha Rathod	7
7.	Finishing well: IOL implantation, OVD Removal & Final safety Checks	Dr. Rohitha Nayak P	7

Hall A- Dr. Doreswamy M N

DAY 1

Nov 27th

10:00 AM TO 11:30 AM

Chairperson : Dr.Prakash D N

Moderator : Dr.Ravindranath H M

Panelist : Dr.Chandrashekhar M Ganganagouda, Dr.Suresha A R

No.	Topic	Speaker	Min
1.	Fluidics Fundamentals: Flow, Vacuum and IOP	Dr. Shilpa Kodkany	10
2.	Gravity vs Active Fluidics: What Changes in the OR	Dr. Prashanth R	10
3.	Ultrasound Modes Decoded: Longitudinal, Torsional, Transversal, Elliptical, 4D	Dr. Ravindranath H M	10
4.	Fine tuning Settings for Soft vs Hard Nuclei	Dr. Deepak Megur	10
5.	Post-Occlusion Surge: Understanding and Preventing It	Dr. Shamanth Shetty	10
6.	Adjusting Parameters After Posterior Capsule Rupture	Dr. Samaresh Srivastava	10
7.	Phaco parameters in long eyes	Dr. Alpesh N Toprani	10
8.	Adjusting phaco parameters in short eyes	Dr. Naren Shetty	10

IC32 - Behind the impact: Decoding Posterior Segment Trauma

Hall B- Dr. Neelakantan R

DAY 1

Nov 27th

09:00 AM TO 10:00 AM

Chief Instructor : Dr.Ravi

Posterior segment ocular trauma is a major cause of monocular visual loss and requires timely diagnosis and appropriate intervention to optimize visual outcomes. This instruction course provides a practical overview of the classification, evaluation, and management of posterior segment trauma. Topics include ocular trauma classification and initial assessment, closed globe injuries with iris and retinal dialysis, traumatic endophthalmitis, traumatic cataract and dislocation of the crystalline lens or intraocular lens, open globe injuries associated with retinal detachment, subretinal bleeds and retained intraocular foreign bodies. Emphasis will be placed on evidence-based management, surgical decision-making, imaging, timing of vitreoretinal intervention, and prevention of complications. Through case-based discussions and surgical pearls, participants will gain practical strategies to improve anatomical and visual outcomes in patients with posterior segment trauma.

Panel Discussion : 10 mins

IC11 - Residency in Medical College – A Pandora ‘S Box of Opportunities & Challenges!

Hall F

DAY 1

Nov 27th

10:00 AM TO 11:00 AM

Chief Instructor : Dr.Tenagi Laxman Arvind

Residency in medical colleges is a privilege with umpteen opportunities, yet with a few challenges. With this Instruction course, we would elaborate on various opportunities for junior residents. In today’s era of “Publish or Perish!”, residents are turning to AI- LLMs. Making proper presentations and management of time and décor of the podium need to be discussed. This is followed by a session on gaining surgical confidence with limited exposure and resources. Various techniques like kitchen ophthalmic technique, OSCAR scoring etc.We wish to address challenges they face in each stage along with red flags. The silent struggling, unsafe hours & documentation overloads are the real issues. We will address opportunities for senior resident, followed by a bonus session of tips to excel in exams by a senior professor. Residents will be oriented to Innovative Teaching – Learning methods This course will include a pre-posttest and discussion on real world scenarios with the post graduates.

Panel Discussion : 10 mins

KARNATAKA OPHTHALMIC SOCIETY

Rapid Fire Paper - Neuro Ophthalmology and Pediatric Ophthalmology

Hall F

DAY 1

Nov 27th

11:00 AM TO 12:00 PM

Judge : Dr.Anuja Desai, Prof.Dr Rekha Mudhol, Dr.Jayanth Rao N, Dr.Pratibha Panmand, Dr.Sandhya Dharwadkar, Dr.Soumya Y J

No.	Topic	Speaker	Min
FP97	Neuro-Ophthalmic Manifestations in Stroke Patients: A Prospective Observational Study	Dr.Deshpande Sanjana Shashikant	3
FP112	Eyes on the genome: A Case repost of CPEO with novel genetic variation	Dr.Poojashree N	3
FP148	Cerebrovascular Insults and Visual Pathway Disruption: Characterizing Post-Stroke Field Deficits	Dr.Shangeetha M	3
FP154	Clinical and radiological evaluation of Carotico-Cavernous fistulas: insights from a case series	Dr.Goudigama Preethi	3
FP160	Visual Outcomes Following Surgical Management of Pediatric Traumatic Cataracts	Dr.Tejaswini Rekulakunta	3
FP212	Surgical Outcomes of Plication vs Resection Combined with Recession in Horizontal Strabismus	Dr.Anisha J	3
FP267	STUDY OF BINOCULAR VISION PARAMETERS IN CHILDREN WITH LOW DOSE ATROPINE FOR PROGRESSIVE MYOPIA	Dr.Shifa Anjum M	3
FP342	From Imaging to Immunology: Case Series Highlighting Antibody-Based Diagnosis in Neuro-Ophthalmology	Dr.Veeksha A Shetty	3
FP344	Knowledge, Beliefs and Practices of Parents Regarding Childhood Eye Health: A Cross-Sectional Study	Dr.Shriya Mahajan	3
FP358	Ptosis in a Child with ALL: Recognizing Vincristine-Induced Neuropathy	Dr.Amulya Das	3
FP360	Healthy Habits, Healthy Vision: A Residential School's Blueprint for Myopia Prevention	Dr.Vindhya Prakash	3
FP370	Plicate the Muscle, Placate the Muscle: Clinical Outcomes of Medial Rectus Plication in Exotropia	Dr.Apoorva Sanjeev Managoli	3

No.	Topic	Speaker	Min
FP388	Kestenbaum Count in Different Etiologies of Optic Atrophy: Is It Still Relevant in the OCT Era?	Dr.Apoorva Sanjeev Managoli	3
FP412	TORCH-Associated Congenital Cataracts:A Case Series Intraoperative Challenges andSurgical Management	Dr.Nithya. R	3

Cataract Conundrums

Hall F

DAY 1

Nov 27th

02:00 PM TO 03:30 PM

Chairperson : Dr.Kamath Sai Giridhar

Co-Chairperson : Dr.Sandeep K

Moderator : Dr.Samaresh Srivastava

Panelist : Dr.Luci Kaweri, Dr.Premnath Raman, Dr.Rajesh K V

No.	Topic	Speaker	Min
1.	Cataract Surgery in Eyes with Corneal pathology	Dr. Deepthi Adarsh	10
2.	Cataract Surgery in Glaucomatous Eyes	Dr. Vikram Jain	10
3.	Handling soft cataracts like a pro	Dr. Megur Bharathi D	10
4.	The Optic nerve in cataract practice	Dr. Rashmin Gandhi	10
5.	Management of Posterior Polar cataracts	Dr. Srinivasa K N	10
6.	Cataract surgery in eyes post refractive surgery	Dr. Sanket Bhatnagar	10
7.	A New Era in Refractive Outcomes: Early Experience with Next-Generation Trifocal IOL	Dr. Naren Shetty	10
8.	Advanced Freeform diffractive profile for enhanced optical performance and visual quality	Dr. Satya Murthy K V	10

IC14 - Double trouble – solving the puzzle

Hall I

DAY 1

Nov 27th

10:00 AM TO 11:00 AM

Chief Instructor : Dr.Sowmya R

The Instruction course is aimed to decipher the common complaints seen in OPD – double vision. Differentiating it from monocular causes and eliciting the relevant history is the first step towards finding a path towards the cause
Then the commoner causes for the same in opd like nerve palsies – will be discussed in a case based approach – relevant examination findings which help us understand and discover the localization for the same will be discussed
The cases will be dissected on findings which helped in diagnosis. The common causes of sixth nerve palsy , III nerve palsy and IV nerve palsy will be discussed
Then the interpretation of Hess and diplopia charting in a methodical way will be discussed – using case scenarios
The restrictive causes like diplopia with thyroid and post fracture will be discussed with cases
This will help all students and general ophthalmologists to get an understanding towards an approach to diplopia

Panel Discussion : 15 mins

KARNATAKA OPHTHALMIC SOCIETY

MIND, BODY AND BEYOND I

Hall A- Dr. Doreswamy M N

DAY 2

Nov 28th

08:30 AM TO 10:00 AM

Chairperson : Dr.Ravishankar K V

Co-Chairperson : Dr.Laxman V Dasar

Moderator : Dr.Pallavi Prabhu

Panelist : Dr.Chinmayee Thrishulamurthy

No.	Topic	Speaker	Min
1.	Smart management of silent threats in medical professionals : BP , SUGAR ,CHOLESTROL ,	Dr. Javeed Nayeem	11
2.	Managing burn out in medical professionals	Dr. Abhijit Ramanna Honagodu	11
3.	Sleep is health : fixing the sleep crisis in health professionals	Dr. Janardhan G S	11
4.	What's wrong (or right) with modern day diet?	Dr. M A Shekar	11
5.	Heart attack and stroke: minutes matter	Dr. Arun Srinivas	11
6.	AI and cybercrime : smart ways to handle cyber fraud	Mr. B N Pramodh	11
7.	AI enabled scientific session in an ophthalmology conference	Mr. B N Pramodh	11

KARNATAKA OPHTHALMIC SOCIETY

Diagnostics in Cataract Surgery — Do We Really Need Them?

Hall A- Dr. Doreswamy M N

DAY 2

Nov 28th | **10:00 AM TO 11:00 AM**

Chairperson : Dr.Vishwanath Reddy

Moderator : Dr.Mallikarjun M Heralgi

Panelist : Dr.Chaithra D Aroor, Dr.Pooja H V, Dr.Umesh Yeddula

No.	Topic	Speaker	Min
1.	Role of Topography and Tomography in Cataract Surgery	Dr. Soumya Ganesh Nanaiah	8
2.	Optical Biometers Head-to-Head: What's in the Market	Dr. Ravi Krishna Kanaradi	8
3.	Role of Specular microscopy in cataract surgery	Dr. Elankumaran P	8
4.	B Scan for the Ant Seg surgeon	Dr. Poornachandra B	8
5.	Macular OCT Before Cataract Surgery: Who and Why	Dr. Vineeth B Bhimshetty	8
6.	Perfecting Ultrasound biometry	Dr. Abhishek G U	8

KARNATAKA OPHTHALMIC SOCIETY

AIOS Symposium

Hall A- Dr. Doreswamy M N

DAY 2

Nov 28th

11:00 AM TO 12:30 PM

Chairperson : Dr.Chitra Ramamurthy, Dr.J. S. Titiyal

Co-Chairperson : Dr.Amit Porwal, Dr.Krishna Prasad Kudlu, Dr.Santosh G Honavar

Convenor : Dr.Mahesh Babu

Moderator : Dr.Mohitha Sharma , Dr.Sharat Shivaramaiah Hegde

No.	Topic	Speaker	Min
1.	Implementation of Check lists in Ophthalmology practice	Dr. Rajashekar Y L	6
2.	Before the First Incision: What You Must Never Miss in Cataract Surgery	Dr. Elankumaran P	6
3.	IOL Choice Post LASIK and RK	Dr. Chitra Ramamurthy	6
4.	Evolving Role of Laser Platforms in cataract surgery	Dr. Krishna Prasad Kudlu	6
5.	The FLUSH–EXPRESS Technique :An Irrigation-Assisted Expression Manoeuvre for Capsular Bag Decompression in Intumescent Cataracts	Dr. Ravindranath H M	6
6.	Phaco in Compromised Endothelium	Dr. J. S. Titiyal	6
7.	IOL Scaffold: The Saviour	Dr. Mohan Rajan	6
8.	Results of the Endophthalmitis Management Study	Dr. Akash Belenje	6
9.	Retinoblastoma 2026 - They Live and See	Dr. Santosh G Honavar	6
10.	Diagnosis and Management of Amblyopia	Dr. Subhash Dadeya	6
11.	Ocular Hypertension : The Treatment Dilemma	Dr. Arup Chakrabarti	6
12.	The Evolving Landscape of SFIOL Surgery: Innovations in Fixation and Refixation	Dr. Shrinivas M Joshi	6

KARNATAKA OPHTHALMIC SOCIETY

Refractive Surgery : Beyond 20/20

Hall A- Dr. Doreswamy M N

DAY 2

Nov 28th | **02:00 PM TO 03:00 PM**

Chairperson : Dr.Padma Prabhu C A

Co-Chairperson : Dr.Satya Murthy K V

Moderator : Dr.Dishitha Rathod, Dr.Elankumaran P

No.	Topic	Speaker	Min
1.	Childhood Progressive Myopia-Recent Advances and Unresolved Challenges	Dr. Deepti Joshi	7
2.	The refractive surgery candidate -pre requisites screening, corneal imaging	Dr. Elankumaran P	7
3.	Pre op planning, from measurements to treatment - choosing the right procedure	Dr. Luci Kaweri	7
4.	Topo- guided vs wavefront guided abalation + 80 micron Femto lasik	Dr. Sudarshan Khokhar	7
5.	Ray tracing guided surgery	Dr. Sunayana N Murthy	7
6.	Perfecting the lenticule - centration, cyclotorsion compensation, energy, dissection and optical zone optimization	Dr. Ramamurthy D	7
7.	Advanced surface ablation as first choice in refractive surgery	Dr. Mohitha Sharma	7

KARNATAKA OPHTHALMIC SOCIETY

NARI SHAKTHI 2026

Hall A- Dr. Doreswamy M N

DAY 2

Nov 28th

03:00 PM TO 05:00 PM

Anchor : Dr.Krishna Prasad R

Mentor: Dr.Chinnappa A G, Dr.Kumar K S, Dr.Manohar Puttanna, Dr.Padma Prabhu C A

Team Leader : Dr.Krishna Prasad Kudlu, Dr.Nagaraju G, Dr.Sandeep K, Dr.Shrinivas M Joshi

Team Member: Dr.Asmita, Dr.Deepti Joshi, Dr.Jayashree P Menashinkai, Dr.Lakshmi K S , Dr.Madhuri Parande, Dr.Mudireddy Lakshmi Priya, Dr.Pallavi Prabhu, Dr.Puneeth Isloor, Dr.Renuka Barki, Dr.Rohitha Nayak P, Dr.Sandhya Rajendra Prasad, Dr.Shamanth Shetty, Dr.Shravan G Masurkar, Dr.Shubhratha Sathish Hegde, Dr.Soujanya K, Dr.Sulatha V Bhandary, Dr.Sunayana Bhat, Dr.Sushmitha Samak S, Dr.Vidyadevi M, Dr.Vivek M Bhaskar

KARNATAKA OPHTHALMIC SOCIETY

Glaucoma Game Changer & Glaucoma Case based panel discussions

Hall B- Dr. Neelakantan R

DAY 2

Nov 28th

08:30 AM TO 10:00 AM

Chairperson : Dr.Murali Ariga, Dr.Vijaya Pai H

Co-Chairman : Prof.Nishat Sultana Khayoom, Dr.Vikram Jain

Guest Lecture : Dr.Alokesh Ganguly

Moderator : Dr.Shilpa N, Dr.Swati R

Panelist : Dr.Asha M S, Dr.Ashwini Niranjan, Dr.Mithun Pai M, Dr.Ponnappa M M, Dr.Pradeep K P, Dr.Praveen V, Dr.Priya D, Dr.Sangeeta Vivek Patil, Dr.Sheetal Amarnath Savur, Dr.Vijaya Pai H, Dr.Vijayalaxmi C Kori, Dr.Vikram Jain

No.	Topic	Speaker
1.	NTG BIOMARKERS AND SYSTEMIC ASSOCIATIONS	Dr. Alokesh Ganguly
2.	Debate : Corrected Corneal Thickness in Glaucoma: A Tool for IOP Correction	Dr. Anuradha A
3.	Debate : Corrected Corneal Thickness in Glaucoma: A Predictor of Disease Progression?”	Dr. Amit Porwal

KARNATAKA OPHTHALMIC SOCIETY

IC43 - The ocular tip-off- What ophthalmologists often see LONG before any other medical professional

Hall B- Dr. Neelakantan R

DAY 2

Nov 28th

10:00 AM TO 11:00 AM

Chief Instructor : Dr.Apoorva A G

Eyes are unique in being the windows to various systemic ailments that may have hitherto remained occult. The eye may be the first to call attention to underlying arterial disorders, auto-immune conditions or even systemic malignancies. This course highlights an array of pointers by illustrious case presentations that would help attendees recognise patterns that have sinister implications. The course is purely case- based and will include the seemingly- routine, to the most mysterious of presentations all of which would ultimately lead to the diagnosis of underlying systemic disorders. These cases will emphasize the irreplaceable role of ophthalmologists who are often the first in the pipeline, on a patient's journey through a multitude of systemic illnesses.

Panel Discussion : 15 mins

KARNATAKA OPHTHALMIC SOCIETY

MSICS Session

Hall B- Dr. Neelakantan R

DAY 2

Nov 28th

11:00 AM TO 12:30 PM

Chairperson : Dr.Shetty Sundar Ram

Co-Chairperson : Dr.Leena Nagraj Patil, Dr.Ravindra M S

Moderator : Dr.Devaprasad Gopal

No.	Topic	Speaker	Min
1.	Coloboma	Dr. Srinivasa K N	8
2.	SICS in hypermature cataract	Dr. Venkata Raghava P	8
3.	Sics in hard cataracts	Dr. Devaprasad Gopal	8
4.	Trab in SICS	Dr. Jnaneshwar Prasanna S	8
5.	SICS in complex situations	Dr. Sushilendra S Kakhandki	8
6.	Hooks and rings in SICS	Dr. Thanuja Gopal Pradeep	8
7.	SICS in challenging scenarios	Dr. Ravindra M S	8
8.	SICS in IOL exchange: opacified IOL /refractive surprise	Dr. Shivaji Padamukhi	8
9.	Converting phaco to SICS	Dr. Manjunath Chittaiah	8

KARNATAKA OPHTHALMIC SOCIETY

KOS Awards Session

Hall B- Dr. Neelakantan R

DAY 2

Nov 28th

02:00 PM TO 03:00 PM

Award Presenter: Prof.Ananth Bhandary.S, Dr.Deepti Joshi, Dr.Dishitha Rathod, Dr.Elankumaran P, Dr.Kavitha V, Dr.Krishna Prasad R, Dr.Mahesh Babu, Dr.Pallavi Prabhu, Dr.Poornachandra B, Dr.Ravi Kulkarni, Dr.Ravindra Banakar, Dr.Shamanth Shetty, Dr.Sharat Shivaramaiah Hegde, Dr.Shivaram K V, Dr.Shivayogi R Kusagur, Dr.Soumya Ganesh Nanaiah, Dr.Sunil Ganekal, Dr.Tenagi Laxman Arvind

KARNATAKA OPHTHALMIC SOCIETY

Newer Generation IOLs/ IOL SYMPOSIUM

Hall B- Dr. Neelakantan R

DAY 2

Nov 28th

03:00 PM TO 04:00 PM

Chairperson : Dr.Vasanthi B Kotian

Moderator : Dr.Sarita R J Gonsalves

Panelist : Dr.Koushik Sargod, Dr.Prashanth C R, Dr.Rajagopal Kunnatur, Dr.Rajesh P, Dr.Shravan Pandit

No.	Topic	Speaker	Min
1.	Patient Selection: Who Is (and isn't) a Premium IOL Candidate	Dr. Mohan Rajan	8
2.	Understanding Asphericity in IOLs	Dr. Elankumaran P	8
3.	Toric IOLs in complex situations	Dr. Ramamurthy D	8
4.	Beyond BARRETT: What`s Next? The evolving world of IOL power formulas	Dr. Arup Chakrabarti	8
5.	Expanding Visual Freedom: The EDOF IOL Experience	Dr. Tejal S J	8
6.	Beyond Trifocals: The Evolution of Panfocal Vision with EDGEless Phase Matching Technology	Dr. Krishna Prasad R	8

KARNATAKA OPHTHALMIC SOCIETY

IC45 - Lights, camera, Phaco!!! : Mastering difficult Phaco from start to finish

Hall B- Dr. Neelakantan R

DAY 2

Nov 28th

04:00 PM TO 05:00 PM

Chief Instructor : Dr.Abhishek G U

Routine phacoemulsification is easy; the difficult case is where outcomes — and reputations — are made or lost. This course centers on exactly that gap. Beyond standard technique, attendees work through dense brunescent nuclei, weak zonules, small pupils, white intumescent lenses, and posterior capsule rupture as core content, not afterthoughts. Sessions move from preoperative red-flag recognition through live, case-based intraoperative decision-making — how to spot trouble early, convert technique calmly, and protect the visual outcome when a case stops going to plan — and close with postoperative complication management. Most surgeons can handle a routine phaco; far fewer feel confident in the 10–15% that aren't. This course is built to close that gap.

Panel Discussion : 15 mins

KARNATAKA OPHTHALMIC SOCIETY

Life Beyond Ophthalmology

Hall C- Dr Raghu Rao H K

DAY 2

Nov 28th

08:30 AM TO 10:00 AM

Chairperson : Dr.Haldipurkar Suhas, Dr.Shivaram K V

Moderator : Dr.Krishna Prasad R

No.	Topic	Speaker	Min
1.	Eyeing the Summit - Trials and Tribulations of conquering Mt Everest	Dr. Chinmayee Thrishulamurthy	10
2.	Wheels on the heels - A Traveller's tales	Dr. Manjunath N Marasandra	10
3.	AI for naturally intelligent Ophthalmologists	Dr. Nagaraju G	10
4.	Whose Life is it anyway ? - Chasing ever elusive Health and Happiness	Dr. Krishna Prasad R	10
5.	Adding Spice to Life - Culinary exploits for a Blissful living	Dr. Sachin Vasant Mahuli	10
6.	Short Talk on passion of DJ	Dr. Sirish Nelivigi	10
7.	Short Talk on Badminton success	Dr. Mridula Prabhu	10
8.	Short Talk on Painting hobby	Dr. Venkatasubramaniam G	10

KARNATAKA OPHTHALMIC SOCIETY

DENERVING – NEUROOPHTHALMOLOGY

Hall C- Dr Raghu Rao H K

DAY 2

Nov 28th

10:00 AM TO 11:00 AM

Chairperson : Dr.Jyoti Matalia

Co-Chairperson : Dr.Sunayana Bhat

Moderator : Dr.Samhitha H R

No.	Topic	Speaker	Min
1.	OPTIC NEURITIS changing trends in presentation and management	Dr. Arpitha R	6
2.	DOWN AND OUT" – Managing a case of third nerve palsy	Dr. Sumitha Muthu	6
3.	Saving sight in IIH	Dr. Jyoti Matalia	6
4.	Tackling the torsion- Managing SO palsy	Dr. Soumya Ramani	6
5.	Decoding the nystagmus	Dr. Pratibha Panmand	6
6.	Deceptively simple- Tackling 6th nerve palsy	Dr. Sowmya R	6
7.	The great masqueraders- myasthenia gravis and thyroid eye disease	Dr. Rajagopal Kunnatur	6
8.	Anisocoria in the clinic- A fool proof flow chart	Dr. Lakshmi K S	6

CORNEA SURFACE TO SIGHT

Hall C- Dr Raghu Rao H K

DAY 2

Nov 28th

11:00 AM TO 12:30 PM

Chairperson : Dr.Rekha Gyanchand

Co-Chairperson : Dr.Pallavi Prabhu

Panelist : Dr.Mamatha B, Dr.Sean Socrates Da Silva

No.	Topic	Speaker	Min
1.	EDTA for Band Shaped Keratopathy: My experience	Dr. Manjunatha S	7
2.	From tears to targeted therapy	Dr. Shylaja S	7
3.	A to Z in PUK	Dr. Kiran Kumar K	7
4.	Itch, inflammation & beyond- the allergy system	Dr. Ksheeraja Y	7
5.	Limbal Stem Cell Deficiency: Recognition & Management Pearls	Dr. Aniket Narendra Shastri	7
6.	Navigating Endothelial Failure: From eye drops to grafts	Dr. Mamatha B	7
7.	The Difficult Ocular Surface: 5 Cases, 5 Lessons	Dr. Pallavi Joshi	7
8.	Surgical management of Keratoconus : Recent advances	Dr. Satya Murthy K V	7
9.	MGD: Diagnose It Before You Treat It	Dr. Sushmitha Samak S	7
10.	Management of pterygium: A step by step guide	Dr. Pallavi Prabhu	7
11.	Immunomodulation in dry eye	Dr. Soumya Ganesh Nanaiah	7

KARNATAKA OPHTHALMIC SOCIETY

TUMOR AND TRAUMA - IN AND OUT OF EYE

Hall C- Dr Raghu Rao H K

DAY 2

Nov 28th

02:00 PM TO 03:00 PM

Chairperson : Dr.Santosh G Honavar
Co-Chairperson : Dr.Devjyoti Tripathy
Moderator : Dr.Roshmi Gupta
Panelist : Dr.Ashok Thallangady

No.	Topic	Speaker	Min
1.	Clinical pearls - `What would you do next?`	Dr. Rolika Bansal	10
2.	Oculoplasty and Maxillofacial - Harmonising Strengths for better outcome	Dr. Geetha Nt	10
3.	The Amelanotic Choroidal Mass- Challenges in Differential Diagnosis	Dr. Devjyoti Tripathy	10
4.	Plaque Brachytherapy in Ocular Oncology	Dr. Santosh G Honavar	10
5.	Newer Modalities in orbital tumors	Dr. Fairooz P Manjandavida	10

KARNATAKA OPHTHALMIC SOCIETY

YOSI Symposium

Hall C- Dr Raghu Rao H K

DAY 2

Nov 28th

03:00 PM TO 04:00 PM

Chairperson : Dr.Renuka Habib, Dr.Rolika Bansal

Organizer: Dr.Preethi B P, Dr.S M Rakshitha, Dr.Tanveer Kaur, Dr.Tanya Kamath

Team Leader : Dr.Nishanth S

KARNATAKA OPHTHALMIC SOCIETY

IC31 - CCC Challenges

Hall C- Dr Raghu Rao H K

DAY 2

Nov 28th

04:00 PM TO 05:00 PM

Chief Instructor : Dr.Nagesh Anandraj

A critical step in Phacoemulsification is creation of a continuous curvilinear capsulorhexis. We face multiple challenges during its creation, like a run away CCC, Intumescent cataract, Fibrosed Anterior capsule, Iatrogenic Zonular dehiscence, Pediatric capsule etc. The speakers will deal with each challenge by showing their best videos on each aspect. The course aims to provide phaco surgeons a very practical approach in dealing with each situation.

Panel Discussion : 10 mins

KARNATAKA OPHTHALMIC SOCIETY

Free Paper - Comprehensive Ophthalmology

Hall D- Dr Narayana Murthy K L

DAY 2

Nov 28th | **08:30 AM TO 10:00 AM**

Judge : Dr.Kamath Sai Giridhar, Dr.Prabhudeva H, Dr.Satish D Shet

No.	Topic	Speaker	Min
FP29	Practice Readiness of Early Career Ophthalmologists: A National Study	Dr.Mahesh Babu	6
FP76	Ophthalmic side effects of Anti-obesity drugs- An Emerging challange	Dr.Priya Chandil	6
FP83	The Face of PEX: Correlating Facial Wrinkles and Elasticity with Ocular PEX Severity	Dr.Chaitra M C	6
FP106	Seeing Beyond Blood: Ocular Manifestations in Blood Dyscrasias in the era of modern therapy	Dr.S M Rakshitha	6
FP108	IMAGE J: Noveal,Mutiutility,Multimodality diagnostic tool for precise multiple ocular pathologies	Dr.Dr Bhramaramba Banagar	6
FP126	BRIDGING DIGITAL & CONVENTIONAL: PEEK VISUAL ACUITY Vs LOGMAR STANDARDS IN MEASURING DISTANT VISION	Dr.Pooja V	6
FP172	Vision Therapy in Diverse and Difficult scenarios in Children: A Case Series	Dr.Anu Sheshadri C	6
FP219	Beyond the Slit Lamp: Human versus AI in Anterior and Posterior Segment Diagnosis	Dr.Anisha J	6
FP237	Influence of pupil dilation on Barrett Universal II, Haigis and SRK/T iol formulas.	Dr.Tarnoom Abdulrehman Athani	6
FP310	A PROSPECTIVE STUDY ON ISOTRETINOIN ASSOCIATED OCULAR SIDE EFFECTS IN PATIENTS WITH ACNE VULGARIS	Dr.Athira K	6
FP343	Assessment and Improvement of Patient Waiting Time in Ophthalmology OPD: A Clinical Audit	Dr.Karthiyayini.S	6
FP457	Factors affecting the long-term outcome of Trabeculectomy in Glaucoma patients	Dr.Anisha Vyawahare	6

No.	Topic	Speaker	Min
FP491	Clear Vision, Quick Flex: Do Spectacles Supercharge Myopic Eye Flexibility?	Dr.Devarapalli Praveena	6

KARNATAKA OPHTHALMIC SOCIETY

PG Free Paper - Medical Retina

Hall D- Dr Narayana Murthy K L

DAY 2

Nov 28th | **10:00 AM TO 11:00 AM**

Judge : Dr.Hemalatha B C, Dr.Venkat Subramanya

No.	Topic	Speaker	Min
PGP10	Study of Nerve Conduction Velocity in Patients with Diabetic Retinopathy and Its Correlation with Disease Severity	Dr.Sushmitha K M	5
PGP14	Ocular Dominance and Diabetic Retinopathy: Association with Asymmetric Retinal Involvement	Dr.Sowmya M Iyer	5
PGP17	Title: Evaluation of Artificial Intelligence in Image-Based Diagnosis of Posterior Segment Pathologies	Dr.Priyanka Kanekal	5
PGP18	The Systemic Inflammatory Signature of Diabetic Retinopathy: A Stage-wise Analysis	Dr.Darshini Kattula	5
PGP19	Title: A Double Hit to the Macula: Staging Hypertension's Impact on Diabetic macular edema via OCT.	Dr.Darshini Kattula	5
PGP25	Clinical Spectrum and Risk Factors of Retinopathy of Prematurity(ROP): A Retrospective Study	Dr.Nisha S A	5
PGP41	Beyond Blood Pressure : Retinal Signatures of Pregnancy-Induced Hypertension	Dr.Vaishnavi E Kamin	5
PGP42	Evaluation of Subfoveal Choroidal Thickness as a Potential OCT Biomarker in Diabetic Patients	Dr.Simran Padiyar	5

KARNATAKA OPHTHALMIC SOCIETY

Karnataka Retina Society (KRS) session

Hall D- Dr Narayana Murthy K L

DAY 2

Nov 28th | **11:00 AM TO 12:30 PM**

Chairperson : Dr.Muralidhar N S

Co-Chairperson : Dr.Guruprasad A S

Coordinator : Dr.Poornachandra B

Moderator : Dr.Sachin Vasant Mahuli, Dr.Sherina Thomas

Panelist : Dr.Kumar K S, Dr.Naresh Babu, Dr.Naresh Kumar Yadav, Dr.Veena C N

No.	Topic	Speaker	Min
1.	A Sympathetic Shadow: Navigating Diagnostic and Therapeutic Uncertainty After Vitreous Haemorrhage Surgery	Dr. Anupama Kiran Kumar	7
2.	The foveal battle	Dr. Vineeth B Bhimshetty	7
3.	Diagnosic dilemma - CSCR Vs Choroiditis	Dr. Kavya C Rao	7
4.	When One Membrane Isn't Enough: Taming a Complex Diabetic TRD	Dr. Payal Naresh Shah	7
5.	Ocular Syphilis: A spectrum of clinical manifestations	Dr. Suchitra Biswal	7

IC49 - Look beyond the images: Decoding everyday ophthalmic diagnostics

Hall E

DAY 2

Nov 28th

10:00 AM TO 11:00 AM

Chief Instructor : Dr.Shilpa I N

Ophthalmic diagnostics forms the foundation of modern eye care which enables precise diagnosis and management of wide spectrum of ocular diseases.This course is a tailored approach for key ophthalmic diagnostic tools which emphasis the interpretation of HVF,OCT, pentacam , radiological investigations ,thus giving comprehensive overview that every ophthalmologist must know.

Panel Discussion : 10 mins

KARNATAKA OPHTHALMIC SOCIETY

VOICES and ARGUMENTS: FACULTY DEBATE

Hall E

DAY 2

Nov 28th

11:00 AM TO 12:30 PM

Chairperson : Dr.Ravindra Banakar

Co-Chairman : Dr.Satyajit Sahay Sinha

Co-Chairperson : Dr.Krishna Prasad Kudlu

Moderator : Dr.Ravindranath H M, Dr.Shamanth Shetty

11.	ICL vs laser refractive surgery : best option for refractive error correction	Dr. Madhu	6
12.	ICL vs laser refractive surgery : best option for refractive error correction	Dr. Priyank Solanki	6

KARNATAKA OPHTHALMIC SOCIETY

IC3 - ADVANCED DECISION MAKING MASTERY :STRATEGIC SELECTION ACROSS DIFFERENT OCULAR CONDITIONS

Hall E

DAY 2

Nov 28th

02:00 PM TO 03:00 PM

Chief Instructor : Dr.Krishna Prasad Kudlu

Advanced IOL decision-making is multifactorial and highly personalized. In eyes with myopia, corneal pathology, presbyopia ,previous refractive surgery, or retinal disease, maximizing quality of vision is often more important than achieving complete spectacle independence. Careful preoperative diagnostics, accurate biometry, retinal evaluation, and realistic counseling are essential for successful outcomes.

Panel Discussion : 5 mins

KARNATAKA OPHTHALMIC SOCIETY

IC23 - Keratoconus: When to Watch, When to Act, and What Comes Next

Hall E

DAY 2

Nov 28th

03:00 PM TO 04:00 PM

Chief Instructor : Dr.Pooja Mayurbhai Khamar

Keratoconus management has evolved far beyond topography and visual rehabilitation. Increasing evidence reveals it as a complex disorder involving molecular dysregulation, extracellular matrix remodeling, genetic susceptibility, inflammation, and altered corneal biomechanics.

This course explores the complete continuum—from molecular pathogenesis and tear biomarkers to corneal biomechanics, advanced imaging, and personalized therapeutic interventions. Participants will learn how biological mechanisms drive corneal weakening, how biomechanics translates molecular changes into structural failure, and how emerging technologies enable disease prediction before morphological changes appear.

Through clinical cases and translational insights, the course provides practical frameworks for integrating molecular diagnostics, biomechanics, imaging, and individualized treatment planning into contemporary keratoconus care.

Panel Discussion : 7 mins

IC40 - PC Tear Management - The Masterclass

Hall F

DAY 2

Nov 28th

08:30 AM TO 09:15 AM

Chief Instructor : Dr.Deepak Megur

Objectives: This highly visual instruction course provides a systematic framework for managing posterior capsule (PC) tears. Utilizing high-definition (HD) surgical videos, this course equips cataract surgeons with real-world skills to minimize complications and optimize outcomes.The delegates will learn

Early Diagnosis of PC tear ,understanding PC tear dynamics via HD video analysis.and understanding how to differentiate the prescence or abscence of anterior hyaloid rupture.Management Overview: Step-by-step video demonstrations of immediate strategies following a capsular breach.

Anterior Vitrectomy: Video-guided principles of safe, efficient vitreous removal to clear the anterior segment.IOL Implantation with PC Tear: Case studies on stable lens placement using remaining support (e.g., sulcus fixation, optic capture).

IOL Implantation without Support: Advanced secondary IOL fixation techniques shown in detail for cases lacking capsular support.

Panel Discussion : 10 mins

IC28 - Paediatric Refraction: The Paediatric Vision Playbook

Hall D- Dr Narayana Murthy K L

DAY 3

Nov 29th | **10:30 AM TO 11:30 AM**

Chief Instructor : Dr.Kavitha V

Assessing vision and carrying out refraction in children is quite difficult and challenging. The incidence of refractive error in children is on the rise either because of improvement in diagnosing methods and clinical acumen or changes in lifestyle or a combination of both. It is equally important to interpret these findings so as to enable one to diagnose presence of refractive error and amblyopia at the earliest (during preschool itself) and prescribe appropriate spectacles with suitable power, frames and lenses and treat amblyopia. Yet another important aspect is the early detection and treatment of keratoconus in children with high cylindrical powers. More and more parents are apprehensive about defective visual problems in children and it is mandatory to address each one of them ; same will be discussed by eminent paediatric ophthalmologists in the state.

Panel Discussion : 15 mins

DAY 3

Nov 29th | **09:00 AM TO 10:30 AM**

Chairperson : Dr.Anand Parthasarathy

Co-Chairperson : Dr.Himanshu Matalia

Panelist : Dr.Roopashri Matada, Dr.Thungappa S Kugar

No.	Topic	Speaker	Min
1.	Management of intraoperative perforation in DALK surgery	Dr. Mallikarjun M Heralgi	8
2.	OCT Assisted lamellar surgeries	Dr. Anand Parthasarathy	8
3.	Ocular SJS: Early intervention changes trajectory	Dr. Thanuja Gopal Pradeep	8
4.	Cornea practice in tier 2 city	Dr. Deepthi Prabhakar Iyer	8
5.	Ocular surface optimization prior to cataract and refractive surgery	Dr. Harsha N	8
6.	Chemical Injury: The First 24 Hours Decide the Future	Dr. Anil Raj K S	8
7.	Corneal Melt: Choosing the Right Rescue Procedure	Dr. Roopashri Matada	8
8.	Deep but not through- the art of DALK	Dr. Thungappa S Kugar	8
9.	Graft longevity in corneal transplantation from donor endothelium to surgical survival	Dr. Charuta J Puranik	8
10.	DALK in complicated situations	Dr. Himanshu Matalia	8

Comprehensive Ophthalmology Session -1

Hall E

DAY 3

Nov 29th | **10:30 AM TO 11:30 AM**

Chairperson : Dr.Ravindra Banakar

Co-Chairperson : Dr.Anand Parthasarathy

Moderator : Dr.Satish D Shet

No.	Topic	Speaker	Min
1.	Solving IOL biometry puzzles	Dr. Anand Parthasarathy	6
2.	Omega Ring: - Superb, Safe, Secured and infinitely reusable pupil dilator ring	Dr. Satish D Shet	6
3.	Orthoptek Magnocellular Stimulator in Amblyopia and Other Neuro-ophthalmological disorder	Dr. Arvind Kumar Morya	6
4.	Mapping the minefield: surgical strategies in complex strabismus	Dr. Nithya. R	6
5.	How & why should we document our clinical work - My armamentarium	Dr. Satish D Shet	6
6.	Unblocked: DCR MY WAY	Dr. Shruti Agadi	6
7.	Refractive optical design for seamless progression	Dr. Anand Parthasarathy	6
8.	Endophthalmitis when every minute matters	Dr. Sulatha V Bhandary	6

KARNATAKA OPHTHALMIC SOCIETY

IC16 - Choosing Wisely: How to Choose and Decide in Refractive Surgery?

Hall G

DAY 3

Nov 29th

11:30 AM TO 12:30 PM

Chief Instructor : Dr.Sunayana N Murthy

The success of refractive surgery is determined long before the patient enters the operating room. With options spanning PRK, LASIK, wavefront- and topography-guided treatments, SMILE, phakic IOLs, and refractive lens exchange, the greatest challenge is selecting the right procedure for each patient.This course focuses on personalised decision-making, integrating corneal tomography, epithelial mapping, biomechanics, ocular surface health, wavefront analysis, lifestyle, and patient expectations into a structured framework—with emphasis on recognising limits and knowing when not to operate.Case discussions address PRK vs LASIK selection, wavefront- vs topography-guided advantages, ICL sizing and vault prediction, borderline cornea management, and AI-assisted surgical planning.The goal is patient-centred refractive surgery, where anatomy, optics, biomechanics, and visual needs guide treatment selection, improving safety, predictability, and long-term satisfaction.

Panel Discussion : 5 mins

FP466	Corneal Endothelial Changes After Cataract Surgery in Diabetic and Non-Diabetic Patients	Dr.Keerti Butale	3

KARNATAKA OPHTHALMIC SOCIETY

IC36 - Glaucoma Chirurgiae

Hall H

DAY 3

Nov 29th

11:30 AM TO 12:30 PM

Chief Instructor : Dr.Vikram Jain

Glaucoma surgery continues to advance with the incorporation of novel technologies, refined surgical techniques, and increasingly individualized treatment approaches. Although trabeculectomy remains the gold standard, achieving optimal outcomes necessitates meticulous surgical execution and effective modulation of wound healing. Postoperative complications—including hypotony, bleb failure, shallow anterior chamber, and choroidal detachment—require vigilant monitoring and timely management. The expanding role of glaucoma drainage devices offers effective solutions for refractory cases, while microinvasive glaucoma surgery (MIGS) has transformed the surgical paradigm by providing safer and less invasive options for appropriately selected patients. This session aims to provide a practical, evidence-based update on contemporary glaucoma surgery, equipping clinicians with strategies to optimize outcomes and effectively manage complications.

IC29 - "WHAT NEXT ? Situations in day to day OPD of a General Ophthalmologist "

Hall I

DAY 3

Nov 29th | **09:00 AM TO 10:30 AM**

Chief Instructor : Dr.Roopasree. B . V

Every Ophthalmologist faces one or the other challenges in his or her day to day clinical practice. They encompass a wide range of issues including revisiting the diagnosis and navigating the management plan and addressing unique needs of patients in various settings. This Instruction course throws light on such few common problems faced by General Ophthalmologists and gives clinical insights in diagnosing them and practical tips to manage them well.

Panel Discussion : 5 mins

KARNATAKA OPHTHALMIC SOCIETY

IC20 - NAVIGATING THE TRANSITION – TRIALS AND TRIUMPHS OF YOUNG OPHTHALMIC SURGEONS

Hall I

DAY 3

Nov 29th | **10:30 AM TO 11:30 AM**

Chief Instructor : Dr.Hemanth R

The transition from fellowship training to independent consultant practice is the most challenging phases in an ophthalmic surgeon's career. While fellowship provides advanced surgical skills and subspecialty expertise, the responsibilities of independent decision-making, complication management, patient communication and practice building often present unforeseen challenges. This instruction course aims to explore the common hurdles faced by young ophthalmic surgeons and discuss practical strategies for successfully navigating this critical transition. We would be addressing the key aspects of the early consultant journey, surgical confidence, balancing clinical efficiency, establishing referral networks, handling medicolegal concerns and maintaining work–life balance. Through real-world experiences, case-based discussions, this would help participants gain insights into both the technical and non-technical skills essential for a successful early career.

Panel Discussion : 15 mins
